

Level: Platinum

OPERATION FUTUREKIDS UNITS - PLATINUM (AGES 11 YEARS OLD AND OLDER)

LOG ON In Log On, students create a promotional campaign for a computer-recycling foundation. They also review computer basics and Internet navigation, learn how to scan images, and lay out a trifold brochure.

Â WORLD WILDLIFE

In World Wildlife, students explore different ecological regions, or biomes, around the world. A database is created to compile the plant and animal information found, and observations and discoveries are recorded in an electronic field notebook.

Â WORLD'S FAIR

In World's Fair, students create the official Web site to promote and guide visitors to the various attractions at the fair. They use graphic design skills to create icons and an overall look, then link multiple pages to form a coherent Web presence.

Â WORLD CURRENCY In World Currency, students learn about foreign currency exchange and the stock market. They use spreadsheets to purchase stock, to evaluate past business performance and to monitor actual losses and gains. **TIME CAPSULE** In Time Capsule, students learn how to combine text, graphics, sound, animation and video to create an informative and exciting presentation that depicts different elements of their world.
